SAVE UP TO 87%

with Our 23-Step Quality Used Test Equipment

Used Test and Measurement (T&M) Equipment is an excellent way to reduce the cost of acquiring equipment. And now you have a great new choice - **Livingston Quality Used Test Equipment!**

Livingston Quality Used Test Equipment is central to our mission to help you acquire, use and dispose of test assets with maximum efficiency. We offer carefully selected instruments, including ex-rental units maintained throughout life by Livingston and quality units sourced from the blue-chip companies whose test assets we manage. All fully refurbished and backed by a comprehensive warranty – and at great prices up to 87% off list! Unlike many others, we only advertise units available and stock is updated continuously.

What you get from **Livingston Quality Used Test Equipment:**

- **High Availability** - over 5,000 instruments ready to ship
- **Savings** - up to 87% off list
- **Quality** - 23-point quality check before listing and calibration included
- **Peace of Mind** - 12 month guarantee and extended terms available
- **Speed** - immediate shipping to over 150 countries

Ask about our Finance programmes, Rent-to-Buy and Divide-by-12.

This is only a guide list and availability changes continuously. [Cal +48 22 331 66 66](tel:+48223316666) or visit www.livingston.pl now to find a product or see the full list.

LIVINGSTON 23-STEP CERTIFICATION PROCESS

- | | | |
|--|-----------|---|
| ELECTRICAL & FUNCTIONAL TESTS | 1 | Verify voltage and fuse settings prior to switch-on. |
| | 2 | Perform electrical safety test. |
| | 3 | Perform Self Tests, Verify all displays, LED's and lights are in good working order. |
| PRODUCT AND UNIT VALIDATION | 4 | Physically verify all hardware and software options. |
| | 5 | Check the Asset No. and Serial No. match in Livingston system. |
| REFURBISHMENT | 6 | Validate Firmware and Software revisions and ensure virus-free operation. |
| | 7 | Check and clear Internal memory storage. |
| | 8 | Remove all covers and panels to clean internal and external surfaces and remove redundant labels. |
| | 9 | Check feet, handles, knobs, switches, fans and filters; replace if applicable. |
| | 10 | Check memory/clock backup batteries and user serviceable batteries; replace if applicable. |
| | 11 | Reassemble covers and repeat equipment Self Tests. |
| CONFIGURE AND CALIBRATE | 12 | Configure Hardware and Software options to match customer order requirements. |
| | 13 | Verify current calibration data and calibrate to required standard, if applicable. |
| | 14 | Produce calibration/verification certificate if applicable. |
| | 15 | Affix tamper-proof integrity seals, calibration and electrical safety labels, if applicable. |
| CUSTOMISE FOR DESTINATION | 16 | Set correct voltage, fuse and supply power cord for destination country. |
| | 17 | Set time, date and language for destination country if applicable. |
| SEALING AND PACKING | 18 | Fit protective covers to external connectors/ports. |
| | 19 | Prepare and supply all standard accessories as stated by manufacturer. |
| | 20 | Pack securely with documentation for destination country. |
| INVESTMENT PROTECTION | 21 | Guarantee the Livingston 10-day right of return for a 100% refund. |
| | 22 | Include Livingston 12 month warranty where applicable. |
| | 23 | Back equipment with Livingston technical support. |
